

Khawaja Mustafa Frontend Developer

Empowering Your Digital Journey With Expertly Integrated Shopify And WordPress Solutions, Enhanced By Cutting-Edge Angular And React Features.

About Me

Driven by a love for both design and technology, I thrive on bringing ideas to life through code. My goal is not just to build websites, but to create digital experiences that captivate and engage users. From responsive designs to seamless user interfaces, I pride myself on delivering solutions that exceed expectations. With a keen eye for detail and a commitment to quality, I approach each project with enthusiasm and creativity. Whether it's optimizing performance, ensuring cross-browser compatibility, or integrating the latest technologies, I am dedicated to delivering results that elevate your online presence.

My Work Experience

Iplex, Web Developer

2023 - Present

I led development of responsive, high-performance web apps with React, NextJS, Angular, and Vue, optimized data flow using Redux and RxJS, boosted SEO through SSR and SSG, built APIs with REST and GraphQL, streamlined CI/CD with Docker and Kubernetes, scaled backends using AWS Lambda and NoSQL, and mentored teams to strengthen frontend best practices.

Digital Artistry, Frontend Developer

2020 - 2022

I built modular UIs with React and Vue, strengthened reliability using TypeScript, created real-time updates through WebSockets, documented reusable design patterns in Figma and Adobe XD, integrated SQL and Redis for data-driven elements, optimized deployments with GitLab CI/CD, Docker, and Kubernetes, developed cross-platform mobile apps with React Native, and improved frontend speed and accessibility using Tailwind CSS and Bootstrap.

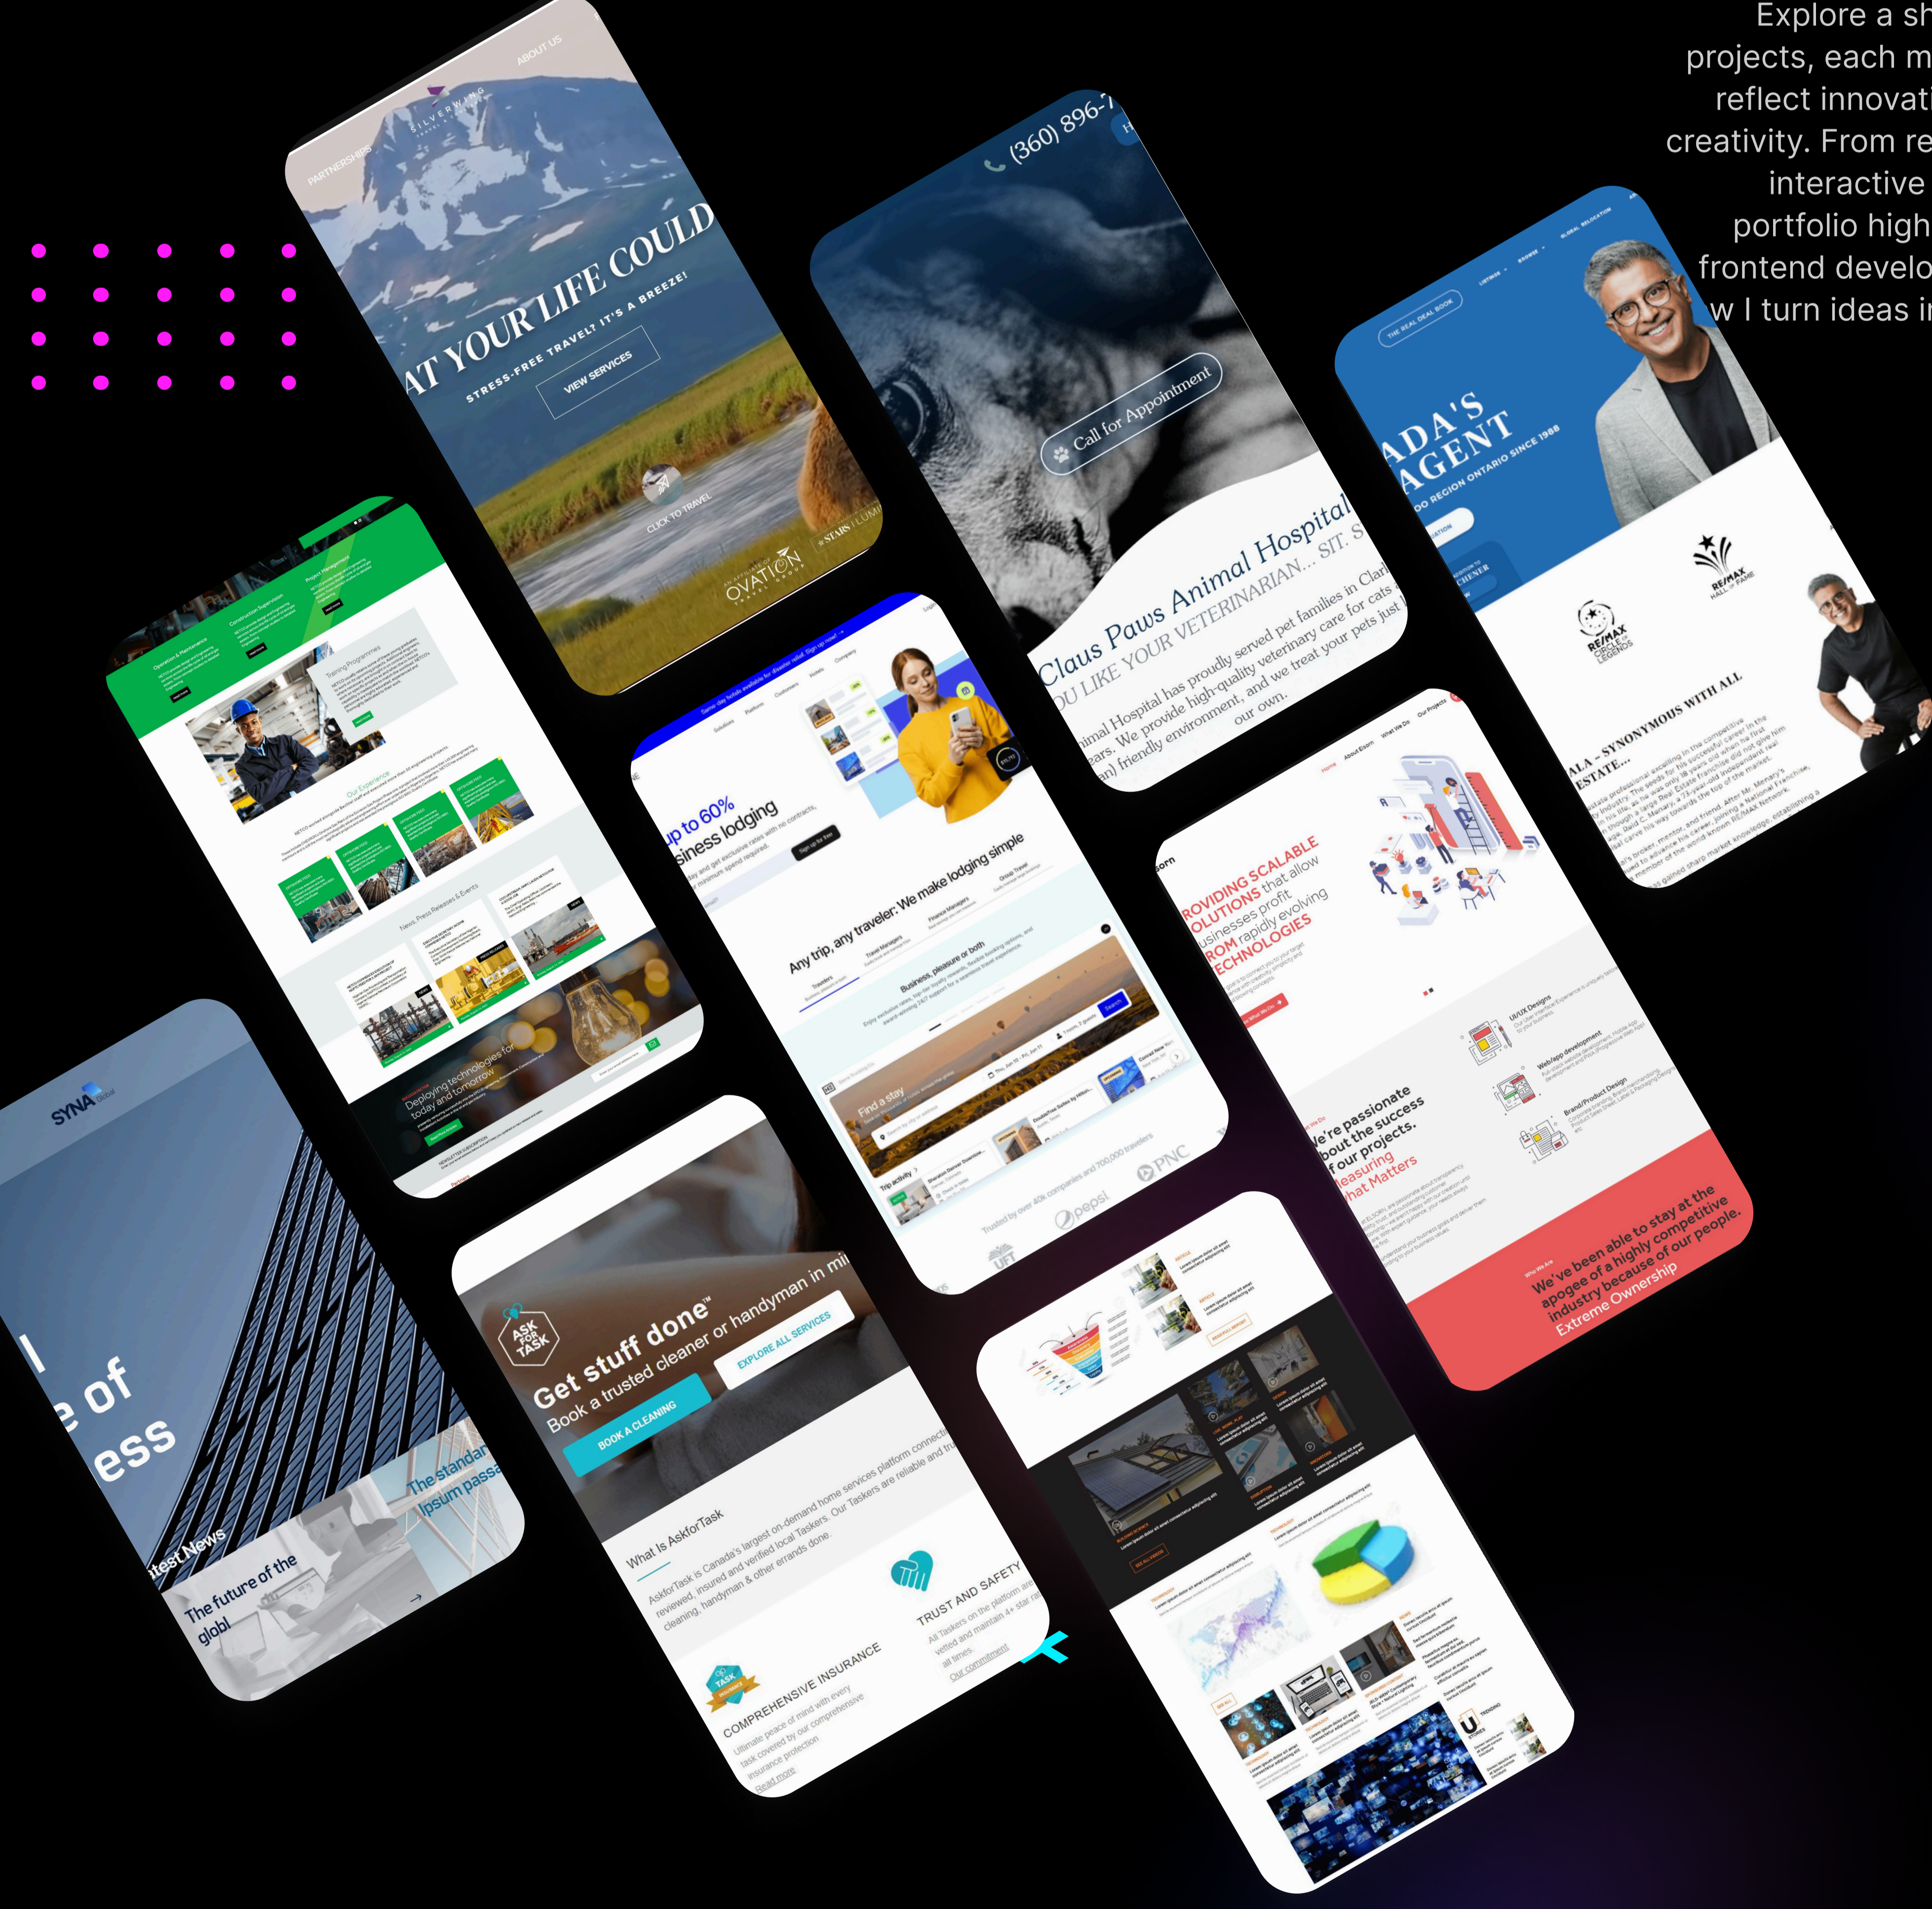

Zinda Agency, Web Specialist

2018 - 2020

I began as a web development intern and advanced to developer, mastering HTML, CSS, and JavaScript while converting static designs into dynamic apps with jQuery, AJAX, and WordPress. I balanced frontend and backend tasks, integrated databases and APIs, delivered projects using Agile practices, built responsive pages with modern frameworks, developed SPAs in AngularJS, ensured cross-browser compatibility, collaborated with clients to refine usability, established modular architecture with Git, and enhanced user experience through custom plugins and enterprise-level features.

My Projects

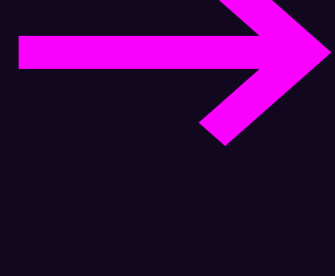

Explore a showcase of my recent projects, each meticulously crafted to reflect innovation, functionality, and creativity. From responsive websites to interactive web applications, my portfolio highlights my expertise in frontend development. Dive in to see how I turn ideas into captivating digital experiences.
